

WHAT SHOULD I DO?

1) Look at the situation. What problem do you need to solve?

What's the problem?

2) Explore various solutions. Include their advantages & disadvantages.

Possible solution 1:

Possible solution 2:

Possible solution 3:

3) Choose a solution.

I will try solution number and my plan is:

4) Evaluate your chosen solution.

How did it go? How did I feel? Do I need to try a different solution?
